Agrium is driven by growth, whether it is to improve the performance of crops that feed the world responsibly, grow our business, our market share or our earnings. Headquartered in Calgary, Alberta, Agrium is one of the world's largest nutrient and fertilizer producers with net sales of almost \$10-billion over the past two years, compared to just \$2.8 billion five years ago and \$1.7 billion ten years ago. How's that for growth!

We also encourage our employees to grow within their roles as we continue to pursue new ways to make Agrium a great place to work. In 2010, we were awarded the distinction of being named one of Canada's Top 100 Employers and one of Alberta's Top 50 Employers. Come grow your career at Agrium and join our more than 11,000 employees across North and South America to help feed a growing world.

Growth is a top priority for Agrium Wholesale and it doesn't just apply to the nutrients we make or the size of our Company. To achieve growth and remain healthy and profitable we need talented, diverse employees to support our initiatives. In 2011, we were named as one of Canada's Top 100 Employers and in 2011 one of Alberta's Top 50 Employers. Come grow your career at Agrium Wholesale where our employees strive to make a difference and take pride in helping to feed the world.

### Specific responsibilities will include:

- Primary responsibility will be a combination of project and process engineering at a Nitric Acid plant
- Nitric Acid Process trouble-shooting & support is a plus
- Capital project management
- PSM program management (MOC, Mechanical Integrity, and PHA)

### Qualifications of the position include:

- Possess a B.S. Degree in Chemical or Mechanical Engineering, with a minimum of 10 years experience
- PSM program knowledge/experience (emphasis on MOC, Mechanical Integrity, and PHA)
- Be a self-starter, able to work with little direct oversight
- Work well in a fast-paced "team" environment
- Have excellent communication and reporting skills
- Possess problem solving, trouble-shooting, and diagnostic skills
- Excellent computer skills with a knowledge of Microsoft Word and Excel

**The following additional qualifications would be a plus:**

- Nitric Acid plant experience a plus
- SAP experience is a plus
- Experience with economic analysis and justifications
- corrosion and materials selection experience
- supervisory skills and experience

Located in the fertile central valley of California and on the Sacramento River, West Sacramento Operation is ideally located to service the region by road, rail and barge. West Sacramento produces 180,000 tonnes of nitrogen solutions and other products annually.

Agrium Wholesale is committed to providing employees with competitive compensation that reflects individual contribution, business performance and the markets in which we compete for talent. We pay-for-performance; employee total compensation is linked to Agrium's goals and performance. We welcome diversity in our workplace and encourage applications from all qualified women and men, including persons with disabilities, members of visible minorities and First Nations.

Join Agrium and "Help Feed the World!"

While we appreciate all applications we receive, we advise that only candidates under consideration will be contacted.
