

The Department of Biology at the University of Wisconsin – La Crosse is seeking an Animal Behavior Biologist (Assistant Professor, Tenure Track, Academic Year 100%). We are especially interested in finding a high-caliber individual with a strong background in terrestrial entomology. If you or your colleagues know of recent or “soon to be” Ph.D. graduates with this background, I would appreciate your passing the attached position description on to them. The position description can also be accessed at <https://employment.uwlax.edu/applicants/jsp/shared/frameset/Frameset.jsp?time=1323120487397>.

Thank you for your assistance.

Sincerely,

A handwritten signature in black ink that reads "Roger J. Haro". The signature is written in a cursive style with a large initial 'R'.

Roger J. Haro, Ph.D.
