

Part Time Help Needed Harris County

I am looking for an undergraduate student in the Houston area to assist with a research project at the Harris County Extension Office (3033 Bear Creek Drive, Houston) during the summer of 2009. The position will require approximately 8 hours of work a week (\$10 / hr). The individual will be responsible for collecting, identifying, and counting chilli thrips on roses. In addition, they will also collect beneficial insects on the roses.

If you are interested please send a brief resume listing your work experience, entomology classes taken, and research experience to Dr. Scott Ludwig at swludwig@tamu.edu.

For more information please contact me at 903-834-6191 or swludwig@tamu.edu.
